Team Information

year elements of AV were sold which became Med-Eng LLC.

We intend to show the latest configurations of Digital Vanguard and the Defender D2.1. Both platforms are battery powered and tele-operated. The Vanguard is classified in the small category of ROVs weighing 56 kg and has a superlative tracked drive system complimented by a six DOF arm assembly. The heavier Defender weighs 275 kg, its drive is delivered by six independent electric motors utilising an innovative chassis assembly. Traction is gained via six wheels, as with the Vanguard the Defender has six DOF as standard.
